PROJECTS

E-Commerce Website

- Developed a fully functional e-commerce website using Django as the backend framework.
- The Project includes features like product listing, shopping cart, and Blog, etc.
- Technologies Used:** Django, Python, HTML, CSS, JavaScript, SQLite3, Bootstrap.
- Development Environment:** VS Code.
- GitHub Repository:** <https://github.com/rockingtushar/E-Commerce-Website.git>

Portfolio Website: <https://rockingtushar.github.io/Portfolio/>

- I have developed a personal portfolio website to showcase my projects, skills, and experiences. This platform serves as a comprehensive overview of my work and capabilities, providing potential employers with insight into my abilities and accomplishments.
- Technologies Used:** HTML, CSS, and JavaScript.
- Development Environment:** VS Code.

Music Application

- Developed a web-based music application called Sangeet Music App as a personal project.
- The project prioritizes a visually appealing and intuitive user interface to ensure a smooth and enjoyable experience for users.
- Used HTML5 audio API to control music playback functions like play, pause, seeking etc. Added playback features like shuffle, repeat, queue using JavaScript.
- Technologies Used:** HTML, CSS, and JavaScript.
- Development Environment:** VS Code.
